Filed: July 18, 2003

For: Methods for generating polynucleotides
having desired characteristics by iterative
selection and recombination

Examiner: Samuel Woolwine

Art Unit: 1637

**SECOND SUPPLEMENTAL
APPLICATION DATA SHEET**

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450
MAIL STOP: ISSUE FEE

Sir:

A Second Supplemental Application Data Sheet (ADS) is submitted herewith to correct an error introduced in the Supplemental ADS filed May 7, 2007. The Supplemental ADS filed May 7, 2007, which added the name of a second inventor, contained a typographical error that misidentified one of the priority applications. The Second Supplemental ADS filed herewith corrects this error. The priority information for this priority application is the same as in the original ADS. This Second Supplemental ADS also corrects a typographical error in the filing date of one of the priority applications. The filing date for that priority application is correctly reflected in the filing receipt.

The Commissioner is hereby authorized to charge any fee that is due in connection with this submission to Deposit Account No. 50-0990.

Respectfully submitted,

Sharon M. Fujita
Attorney for Applicant
Reg. No. 38,459
